## ABOUT ME

---

Passionate and adaptable engineering student with strong foundations in Python programming and software development. Experienced in creating Windows desktop applications using Python and familiar with Java, C, and HTML. Eager to explore innovative automation and AI-based projects that improve user productivity.

## EDUCATION

---

### **BTech Degree in Computer Science and Engineering**

TKM Institute of Technology

2022–2026

CGPA: 6.16

### **Class 12 – CBSE**

TKM Centenary Public School

2022

Percentage: 78.6%

### **Class 10 – CBSE**

TKM Centenary Public School

2020

Percentage: 62.2%

## ACHIEVEMENTS

---

### **Internship in Data Science, AI and ML at Techbyheart, Kochi**

JULY 2024

Duration: 1 week

### **Workshop on Data Science (Dhanak 2k23)**

2023

PACELAB

### **Workshop on Programming Using C**

2023

## SKILLS

---

• Problem Solving   • Programming in C   • Python   • Java   • Collaboration

## PROJECTS

---

### **AI POWERED TASK AUTOMATION FOR WINDOWS**

Developed a GUI-based automation system that performs repetitive tasks such as file creation, automated web searches, and more. Built with scalability in mind for future integration of advanced AI-driven automation.

## INTERESTS

---

• Movies   • TV Shows   • Anime   • Video Games   • Coding Challenges
